Was Lately in Command of Eighth Infantry in Philippines.

Col. Colville P. Terrett, U. B. A., the sighth member of his family to bear the same complete name, was piaced on the retired list yesterday on his own application, of the property of the case of the service of the command of the Eighth United States Infantry, stationed in the Philippine Infants, stationed in the Philippine Infants appointed a second Beurseant in the Eighth Infantry by President Hayes in 1828. Practically his whole military career has been with that regiment. He was in the Gecommon and other Indian campaigns, and perticipated in several battles in Cuba diffing the Spanish-American war and in the Philippines Insurrection. He was promoded to colonel in September, 1911.

President Tart accepted yesterday the voluntary resignation of Emilip Herbert Leaven Impenser was appointed to the Naval Academy in 1900 by Representative Page Morts, then representative Page Morts, the Page Second Hearing on Chicage Canal Dreaging is Heids.

Recretary of War Sitnasen gave his second hearing yesterday on the proposition of the Chicago shittlary commission to increase the flow of water from Lake Michigan Into the Chicago drainage canal from 4000 to 16,000 feet per second. The commission holds that this increase is easential to insure sanitary conditions along the canal and to protect the health of the people of Chicago. A few weeks ago he heard the potition of members of the commission and statements made in objection by representatives of shipping land and other cities. They held that hy increasing the volume of the outflow to that extent, the level of the Great Lakes would be lowered so as to interfere with navigation.

Canadian shipping interests also had asked to be beard in objection to the proposition, and James Bryce, the British Ambassador, arranged to have a number of their representatives, together with officials of the Canadian government who are interested, to appear before the Secretary of War to-day at a second hearing. Among these who perticipated in to-day discussions, all opposing the project, were W. J. glawart, chief hydrographer of the Canadian avai department, and V. V. Foronet, superintending engineer of the St. Lawrence ship canal.
